The Boeing 737-8 MAX is the basic model of a new generation of narrow body medium haul aircraft. Equipped with CFM international LEAP engines, it has lower fuel consumption, emissions and noise level. Split wingtips give improved aerodynamics. First flight took place in January 2016. So far the 737 MAX was ordered by 100 airlines with over 4.000 planes.

Kit consists of 121 parts  
Decals for Boeing demonstration plane  
Airplane stand included

**Partially new tooling**
